

Family Communique

Monday, March 23, 2020 UPDATE

To: All Family Members

This afternoon we had a Resident's Meeting to get the opinion of our Residents about new measures we will be initiating in efforts to mitigate exposure to the Corona Virus. I wanted to get the opinions of the Residents prior to moving forward.

The following will be implemented effective today and tomorrow morning at 7am.

--No visitors will be allowed to visit any Resident effective today at 12 noon. This includes at the front doors or on the grounds of the facility. This is a recommendation from the state and federal government to limit exposure of Residents to individuals who may carry the virus.

--Family members or Pharmacies may drop off items for Residents at the front door and we will get these items to the Resident.

--The dining room will be closed for all meals beginning tomorrow morning and meals will be served in the Resident's room.

--All residents have been requested to remain in their rooms as much as possible and not congregate in groups.

--Activities will be conducted and tables etc. spread out across two rooms to limit distance between Residents when participating in activities.

--Residents wishing to contact family members through face time will be assisted by Marketing and other personnel to assist in facilitating communication.

Any questions, please direct to me or Nicole Chauvin. Rick
